The pet if approved are to be outside at all times unless otherwise agreed in writing. The tenant shall be liable for any damage caused by the pet whilst residing in the property. If damage occurs during the tenancy, our agency is to be advised as per the terms of the tenancy agreement and the damage rectified within a reasonable time frame. The tenant understands and agrees that full flea fumigation must take place at the end of tenancy (and during the tenancy if necessary); and upon vacating the property a receipt must be provided from a reputable pest control company.
